

IP-06 WiFi Dome CAMERA

Wireless Dome Cameras are closed-circuit television (CCTV) cameras that transmit a video and audio signal to a wireless receiver through a radio band. Many wireless security cameras require at least one cable or wire for power; "wireless" refers to the transmission of video/audio.

Wireless Dome cameras are proving very popular among modern security consumers due to their low installation costs (there is no need to run expensive video extension cables) and flexible mounting options. In addition to the ease of use and convenience of access, wireless security camera allows users to leverage broadband wireless internet to provide seamless video streaming over-internet.

Features

- Operating system GOKE, Support iPhone, Android phone App to Watch
- Resolution Full HD1920×1080, Lens3.6mm, H.264
- 1/4" 2 megapixel progressive CMOS sensor
- WI-FI 802.11 b/g/n
- Power Supply DC 12v/1A
- 3X Electronic Zoom, Night Vision 20 meter
- Infrared LED 6, Metal waterproof gun Machine
- Two way Audio Communication
- RJ-45 10/100MB adaptive Ethernet interface
- Support SD Card Recording, Video Playback, Max 128GB TF card
- 1 year warranty

Better Resolution

Less Maintenance

Cost-effectiveness

Xsort Technologies LLP, an electronic trading & product manufacturing company, produce High quality electronic security IP cameras, Security systems. we envisage to provide best in class premium quality electronic products for our customers and to be a dominant force in electronic product market with high standard manufacturing & assembly line, we are also 100% committed to provide world class, unparalleled level of service and support for our customers nationwide.
